

# Venture Jetpack

Every day you spend raising capital is a day you aren't working on your company. Accelerate your capital raise efforts and impress potential investors with a Venture Jetpack from Venture First.

## What's Included?

A quickly-delivered suite of deliverables to support your raise.

**Financial Model:** A bottoms up, investorgrade financial model is the cornerstone of any company's finance & fundraising efforts. It's essential for raising early stage capital, understanding cash needs, cash flow management, unit economics, & hitting revenue targets.

**Pitch Deck:** A set of well designed, branded, and easy to digest investor materials are essential for conveying the unique value proposition of your company to investors who see pitches on a daily basis. We have helped hundreds of companies raise capital. We know what makes an investor-grade pitch deck and what can set you apart.

**Investor Target List:** A great financial model, pitch deck, and strategy aren't worth much if they fall on deaf ears. By leveraging all our investor contacts built through countless capital raises, and extensive databases subscriptions, we will curate a targeted list of investors who should have an interest in your company.

**Data Room:** A data room is an online, easily shareable file structure which houses any and all documents investors require for due diligence. By turning the due diligence process into a matter of days rather than months, you will close your round more quickly so you can get back to growing your company.
