

# Litigation Support

Disputes over the value of a business or other ownership interests are sometimes unavoidable. Reliable litigation support and accurate assessment of economic impact, value, and damages in any legal matter is vital and can result in significant savings of time, effort, and money if effectively executed.

Venture First valuation professionals are experts in litigation, arbitration and mediation in local, state, federal and national courts. We have quantified damages for loss of business value, corporate and securities claims, owner conflicts, and lost profits in matters successfully resolved in and out of court.

Our independent, objective written reports and verbal testimony reinforce your legal position. We support attorneys with case assessment strategies, analysis of economic evidence, expert reports that quantify economic loss or damages, settlement negotiations, and alternative dispute resolution.

**Engage our Experts for:**

- Business and contractual disputes (including enterprise valuations, shareholder conflicts, diminution of value claims, purchase price disputes and damage calculations)
- Insurance claims on both business and asset values
- Tax-related conflict - Solvency analysis (retrospective)
- Marriage dissolutions
